

# *Radstons* wants your used batteries!

**“New law makes it illegal to throw out electronic waste**

Thursday, February 9, 2006

“(02-09) 17:55 PST SACRAMENTO, (AP) --

“A rule that took effect Thursday makes it illegal to toss used batteries...and other household hazardous materials into the garbage.”

Being a green business means we care and work with our customers to protect the environment.

Please give your used batteries\* and cell phones to our driver when we make our normal delivery. We will take them to a designated site for recycling.

And don't forget...We pick up inkjet and laser cartridges for recycling as well.

Between you and us, we can do it.
